different styles

WHAT MAKES US GREAT

MADE IN AMERICA

We are returning apparel manufacturing to the USA. Our products are designed, printed and sewn at our facilities in Denver, Colorado.

ECO-FRIENDLY

We build our products using fabrics made from recycled plastics certified by the Global Recycled Standard. Our packaging is made from 100% recycled content.

SOCIAL MISSION

We provide skills-based employment with fair wages and benefits for resettling refugees so they can acculturate quickly and attain economic self-sufficiency.

QUALITY

We print our own textiles with intense attention to detail, then cut and sew each garment to specification, resulting in the highest quality.

FAST TURNAROUND

We offer guaranteed delivery of orders in as fast as 7 calendar days with our expedited services. Standard turnaround is 30 days.

SIZING

We can suit modern or traditional tastes with a variety of necktie widths. Extra-long neckties and bow ties are also available.

DESIGN SUPPORT

Our expert graphic design team can create simple branded patterns, specific logo placements or work with client supplied artwork.

COLOR MATCHING

We expertly match required colors and can provide printed swatches or full production samples upon request.

INDIVIDUAL PACKAGING

Every product comes individually packaged in recyclable boxes and make for perfect gifts. Packaging is optional.

JURA

For Jura Whiskey and their parent company, Whyte & Mackay, we created one-of-a-kind pocket squares to include in high-end wooden gift boxes for a special whiskey release. These designs were color matched and printed to meet strict specifications with thousands delivered to multiple locations.

HUBSPOT

Hubspot's IPO ceremony at the NYSE was highlighted with custom ties featuring their iconic bright orange.

"In addition to producing high quality ties, their customer support was truly remarkable, so much so that we ordered from them again. I've never dealt with a vendor so pro-actively willing to make an effort on our behalf, they were fantastic." - Katie B, Hubspot

CONCORD

Thousands of partners and employees were outfitted with custom designed ties and scarves in high-end commemorative wooden gift boxes, as part of RSM Global's ambitious re-branding campaign. In addition to gift packages, RSM also took advantage of our on-demand reordering capabilities to stock their company store.

VIRGINIA TECH

Virginia Tech's unveiling of a new institutional mark required a two week turnaround of updated ties, bow ties, and scarves to be used as gifts to celebrate their branding change. After the launch, several of their bookstores were supplied with the newly branded apparel for outfitting students and faculty.

TACO BELL

In support of a clever viral marketing campaign, we partnered with Taco Bell to design and create bow ties, pocket squares, and custom fabric for their *Love and Tacos* wedding package. In addition to a marriage ceremony in Taco Bell's own Las Vegas chapel, each bride and groom gets our custom merchandise and a bouquet made of hot sauce packets.

DRISCOLL'S

Driscoll's Berries launched a video marketing campaign to promote their new brand image and needed custom ties, pocket squares, and scarves to support it within three weeks time. Still able to meet their timeline, our team of graphic designers were able to transform their new branding into a remarkable design that worked best on our products.
